

Application form to the CEI « Maritime safety for floating offshore wind »

This document is intended to be transmitted for examination to the jury of the AMI "Maritime Safety for Floating Wind Energy". By submitting a file, the partners implicitly accept the rules of the AMI.

Name of the PROJECT	
Long title (10/20 words max)	
Project owner	

Project owner	
Name, first name, firm, coordonnées (adress, number, fax, mail)	

Nature of the project:	
Subject 1	Free figure « Innovating solution in the construction security and floating wind farm operation field ».
	<input type="checkbox"/> Activity coordination <input type="checkbox"/> autonomous and remotely operated systems (drones) <input type="checkbox"/> Personal safety equipment <input type="checkbox"/> Safety, rescue or emergency management systems <input type="checkbox"/> Other
Subject 2	<input type="checkbox"/> Solution for the detection and positioning of wind turbine anchoring elements for fishing vessels
Project's goal (<i>maximum 5 lines</i>) :	

Non-confidential presentation of the project or solution (maximum 15 lines) :
NB : if the project is selected, the text will be used for external communication purpose

Objectives and goals of the project (maximum 20 lines) :

This application can be completed by any additional document, brochure, description allowing to evaluate the relevance of the solution.

Project owner & possible consortium

Project schedule

Kick off date :

Deadline :

Project duration (in months) :

Target marketing date :

Targeted market(s) :

Innovation: techniques/technologies implemented and techniques/technologies sought : (maximum 10 lines) :

1. State of the project in relation to the current state of technological and scientific knowledge.
 2. Specify the innovative nature of the project.
-

Summary of expected economic, industrial, technological and scientific benefits (maximum 15 lines) :

(including number of jobs maintained or created during the project and at market launch, strategic stake for the company, expected valorization in terms of patents, scientific publications, etc)
